

REGIONAL CONSOLIDATED SERVICES

Weatherization Assistance Program & H.A.R.R.P.

Serving Guilford, Davidson, Forsyth, Rockingham, and Randolph Counties

The Weatherization Program is a federally funded state governed program. The program is designed to assist low income, elderly, and persons with disabilities reduce the cost of their energy bills by making the dwelling more energy efficient. Eligibility is based on total household income. If someone in the home receives Supplemental Security Income the applicant is automatically eligible. All services are at **NO Cost** to homeowners who qualify, and Section 8/HUD recipients.

Weatherization measures are based on need and consist of some of the following: insulating, air sealing, caulking, installing a vapor barrier, installing a smoke alarm and carbon monoxide detector, replacing existing light bulbs with CFL bulbs, installing low flow faucet aerators and showerhead.

We also have standards in regard to rental properties. First, the tenant must be income eligible. Then, the landlord/owner of the dwelling must complete a landlord/tenant agreement which stipulates, if the landlord does not qualify for this program themselves, that there is a donation requirement of \$275.00 per unit for these services. This donation is approximately 10% of the total cost of weatherization to an average property.
